**IMPORTANT NOTES**

It is very important that you, the owner, be part of the training process. If you live locally, we request that you come in to work with us and your dog; this provides you with the commands and skills needed to have a successful working relationship when you take your dog home.

All dogs learn and progress at different rates. After evaluating your pet and working with him/her a few days, we can give you a better idea of how long it will take to learn desired skills. We can not say that we will unconditionally be able to teach your dog certain things in a certain amount of time.

We encourage you to join an obedience class after taking your dog home. This allows you and your dog to continue working on skills learned at Lucky Dog.

Please bring the thoughts, concerns, and issues that you would like to address when you arrange training for your pet.
